No. $\frac{S.R.}{611}$ OF 1904.

From

SURGEON-GENERAL W. McCONAGHY, M.D., I.M.S.,
Surgeon-General with the Government of Bombay;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Bombay, 30th April 1904.

SIR,

I have the honour to forward, for the information of Government, the Annual Report on the Lunatic Asylums of the Bombay Presidency for the year 1903, prepared in accordance with the Resolution of the Government of India, Home Department (Medical), No. 21—31, dated 12th January 1904, forwarded with this Government Resolution No. 518, dated 2nd February 1904, General Department.

2. The health of the inmates during the year under review and the two previous years has remained good, and considering the average population of the Asylums, there has been a marked decrease in the amount of sickness. The percentage of daily average sick to the daily average strength was 4·3, as compared with 4·7 in 1902 and 5·3 in 1901. The total number of insanes treated in the Asylum hospitals for diseases other than those of insanity was 514 against 487 and 387 in 1902 and 1901 respectively, the chief causes of admissions being malarial fever, dysentery, diarrhœa, phthisis, epilepsy, debility and anæmia.

The cases of fever treated numbered 249 against 272 in 1902 and 84 in 1901. Phthisis caused 21 admissions with 15 deaths as compared with 17 cases and 8 deaths in 1902 and 21 cases and 14 deaths in 1901. Bright's diseases accounted for 5 cases and 3 deaths in each of the years 1902 and 1901, whereas in the year 1903 there were only 2 admissions which proved fatal. There were 16 cases of cholera treated, at Hyderabad and 1 at Naupáda during the year 1902. The Superintendents of the Hyderabad and Naupáda Asylums were unable to trace the origin of the outbreak of cholera. There was a slight reduction in the cases of diarrhœa treated, but a large increase in those of dysentery and debility.

There were 66 deaths from these complaints as compared with 73 in 1902 and 77 in 1901, whereas in the year 1900 they numbered 139, or nearly double the mean of the three years 1901—1903.

3. Among the Europeans at Colaba there were 2 deaths, one from debility and another from cirrhosis of the liver and paralysis. The 4 deaths among natives were due to cerebral hæmorrhage, remittent fever, tubercle of lungs and pernicious anæmia.

At the Poona Asylum the causes of the 16 deaths were as follows:—tubercular phthisis 4; dysentery and debility 2 each; leprosy, apoplexy, paraplegia, epilepsy, heart disease (fatty), acute bronchitis, diarrhœa and Bright's disease 1 each.

At Dhárwár the 3 deaths resulted from tubercle of lungs, epilepsy and Bright's disease.

At the Ahmedabad Lunatic Asylum there were 4 deaths, *viz.*, 2 from dysentery, and 1 each from plague and valvular disease of the heart.

At Hyderabad, dysentery caused 4 deaths, debility 2 and septicæmia 1—in all 7.

The sub-joined table gives the ratios of sickness and mortality in each of the Asylums during the three years 1901—1903.

Name of Asylum.		Percentage of daily average sick to daily average strength.	Ratio of deaths per mille to	
			Average daily strength.	Total population.
Colába	1903 ...	5·7	47·2	24·0
	1902 ...	3·9	35 4	11·4
	1901 ...	7·0	102·3	62·1
Naupada, Thána (Narotamdas Madhavdas).	1903 ...	8·4	149·3	101·7
	1902 ...	8·7	89·8	66·4
Ratnágiri	1903 ...	1·1	...	...
	1902 ...	1·3	39·2	36·0
	1901 ...	2·3	119·0	104·0
Poona	1903 ...	3·7	165·1	117·6
	1902 ...	4·1	125·9	93·0
	1901 ...	8·3	155·4	114·7
Dhárwár	1903 ...	1·3	38·4	31·9
	1902 ...	2 0	89·1	78·6

	1902 ...	4·7	90·0	56·4
	1901 ...	5·3	100·1	72·0
Average for	1901-1903 .	4·8	90·9	62·1
	1898-1900 .	5·1	118·6	86·3

4. The usual repairs to the Asylum buildings have been carried out by the Public Works Department.

5. The water-supply of all the Asylums was reported to be good and ample for all ordinary purposes, with the exception of the Colába Asylum in Bombay, where, the Superintendent says, the supply is occasionally rather limited. Steps are being taken to have this remedied.

6. The undermentioned works were executed out of the discretionary grant at my disposal during the three years 1901—1903:—

1901.	Rs.
1. Laying a water-pipe and making a masonry gutter to the cook-house at the Lunatic Asylum, Ahmedabad	157
2. Re-placing wooden railing between the male and female yards by a masonry wall at the Lunatic Asylum, Dhárwár	168
3. Supplying iron barred and wire-netted windows to the Dispensary at the Lunatic Asylum, Dhárwár	18
4. Lowering the roof of the urinals of the male and female barracks at the Lunatic Asylum, Dhárwár	24
5. Raising the roof of the male and female latrines by 2½ feet at the Lunatic Asylum, Dhárwár	30
6. Gahagan's patent latrine of two seats to the Hospital Assistant's quarters at the Lunatic Asylum, Dhárwár	205
Total ...	602

1902.	Rs.
1. Converting the bathing place into a latrine for the male ward at the Lunatic Asylum, Ahmedabad	408
2. Constructing a bath-room in the Lunatic Asylum, Ahmedabad ...	248
Total ...	656

1903.	Rs.
1. Providing wire-netting to the windows of rooms in which dangerous Lunatics are kept at the Lunatic Asylum, Ratnágiri	61
2. Providing wooden covering to the well in the Lunatic Asylum at Dhárwár	204
3. Constructing a masonry howd in connection with the servants' latrines at the Lunatic Asylum, Poona	46
4. Providing iron-barred shutters to doors of cells for men in the Lunatic Asylum, Poona	30
5. Removing portion of enclosure-wall of the female yard at the Lunatic Asylum, Hyderabad	369
Total ...	710
Grand Total ...	1,968

7. On the statistical tables appended at the end of the report, I beg to offer the following remarks :—

The total population of the Asylums was 1,114 against 1,295 in 1902 and 1,069 in 1901. Of these, 897 were males and 217 females as compared with 1,024 males and 271 females in 1902 and 841 males and 228 females in 1901. There were 317 admissions and re-admissions during the year 1903 against 522 and 310 in 1902 and 1901 respectively; 72 males and 21 females were discharged cured, as compared with 71 males and 15 females in 1902 and 53 males and 16 females in 1901. 151 males and 16 females were transferred to the care of friends against 111 males and 26 females in 1902 and 125 males and 25 females in 1901. The deaths comprised 50 males and 16 females, as compared with 55 males and 18 females in 1902 and 62 males and 15 females in 1901. There were 4 escapes during the year 1903 against 3 in 1902 and 2 in 1901.

The total number of criminal lunatics confined was 117 males and 17 females=134 as compared with 156 in 1902 and 127 in 1901, and their daily average strength was 109·1 against 109·7 and 100·1 in 1902 and 1901 respectively.

The following are the causes, as far as ascertained, leading to insanity in persons charged with crimes of violence :—

	1903.	1902.	1901.
Ganja smoking	8	7	6
Epilepsy	3	5	6
Grief	6	8	5
Hereditary causes	5	6	5
Alcoholism	1	2	1
Religion	...	2	3
Previous attacks	4	7	3
Puerperal fever	1	1	1
Mental trouble	1	1	1
Anger	...	...	1
Fever	2	3	3
Moral causes	...	1	1
Loss of property, etc.	...	2	2
Congenital idiocy	1	1	1
Hard study	1	1	...

In 34 cases the cause was not known.

The total expenditure amounted to Rs. 1,60,214-3-7 against Rs. 1,59,738-6-3 in 1902 and Rs. 1,62,157-12-11 in 1901. There was an increase in the cost of establishment over the preceding two years, owing to the entertainment of additional servants at different asylums during the year 1903. Rupees 58,207-1-0 were expended on diets, as compared with Rs. 56,297-2-7 in 1902 and Rs. 60,942-9-4 in 1901. Clothing and bedding cost Rs. 6,068-5-8, or Rs. 438-0-2 and Rs. 77-2-5 respectively more than in 1902 and 1901. There was a decrease of Rs. 430-9-3 and Rs. 1,193-5-7 in the cost of medicines and contingencies as compared with the year 1902, whereas they show an increase of Rs. 513-8-8 and Rs. 812-8-6 respectively over that of 1901.

If the sums of Rs. 15,506-2-2 received from paying patients, Rs. 1,639-0-8 on account of the sale of manufactured goods to the public, etc., Rs. 1,749-11-7 made over to the Asylums for asylum purposes, and Rs. 749-1-8 received from miscellaneous sources—total Rs. 19,644-0-1—be deducted from the amounts received from the treasury together with that adjusted to Government as "book charges," the net cost would be Rs. 1,20,926-3-5 as compared with Rs. 1,18,919-1-9 in 1902 and Rs. 1,14,162-4-5 in 1901. The net cost per head of daily average strength was Rs. 151-11-8 against Rs. 146-11-0 in 1902 and Rs. 148-5-5 in 1901.

The amount expended for the amusement of the insanes was Rs. 1,708-11-9 as compared with Rs. 1,780-3-6 and Rs. 1,696-0-2 respectively in 1902 and 1901.

The total receipts of the Manufacturing Department amounted to Rs. 3,992-7-9 during the year 1903, showing a profit of Rs. 2,755-10-2, as compared with Rs. 2,527-4-6 in 1902 and Rs. 2,651-2-1 in 1901.

I have the honor to be,

Sir,

Your most obedient Servant,

W. McCONAGHY, M.D., Surgeon-General, I.M.S.,
Surgeon-General with the Government of Bombay.

ANNUAL STATEMENT No. I.

Showing separately the Admissions, Discharges, etc., etc., of Lunatics in the Lunatic Asylums of the Bombay Presidency during the year 1903, and the provincial totals for two previous years.

The capacity of the Colába Lunatic Asylum is, at 50 superficial feet per patient, for 90 Europeans—70 males and 20 females—and for 168 natives—104 males and 64 females; the maximum number of European lunatics confined on any one night was 29 males and 14 females, and that of native lunatics 68 males and 35 females.

The capacity of the Narotamdas Madhavdas Lunatic Asylum, Naupáda is, at 50 superficial feet per patient, for 198 males and 42 females; the maximum number of lunatics confined on any one night was 171 males and 42 females.

The capacity of the Ratnagiri Lunatic Asylum is, at 50 superficial feet per patient, for 73 males and 39 females; the maximum number of lunatics confined on any one night was 75 males and 25 females.

The capacity of the Poona Asylum is, at 50 superficial feet per patient, for 108 males and 24 females; the maximum number of lunatics confined on any one night was 79 males and 23 females.

The capacity of the Dhárwár Lunatic Asylum is, at 50 superficial feet per patient, for 64 males and 24 females; the maximum number of lunatics confined on any one night was 65 males and 16 females.

This is the cell accommodation:—

18 cells have each entire capacity of 1,490 feet, and a supercial area of			123	square feet.
10	do.	of 1,460	do.	of 88 do.
2	do.	of 787	do.	of 78 do.
1 night barrack has entire capacity of 14,526			do.	of 1,210 do.
1 night barrack has	do.	of 10,804	do.	of 900 do.

The capacity of the Ahmedabad Asylum is, at 50 superficial feet per patient, for 90 males and 18 females; the maximum number of lunatics confined on any one night was 85 males and 16 females.

The capacity of the Hyderabad Asylum is, at 50 superficial feet per patient, for 150 males and 20 females; the maximum number of lunatics confined on any one night was 105 males and 6 females.

* Escaped.

† 2 escaped, 1 transferred from non-criminal to criminal class and 1 discharged to make her defence and subsequently re-admitted under seciton 471, Criminal Procedure Code.

Annual Reports.—

Report on the Lunatic Asylums in the Bombay Presidency for the year 1903.

General Department.
No. 3271

Bombay Castle,
24th June 1904.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—1779, dated the 1st June 1904 :—

"I have the honour to forward the attached Annual Report on the Lunatic Asylums of he Bombay Presidency for the year 1903, and to state, for the information of Government, that there is nothing in it the immediate publication of which can be considered of doubtful expediency."

RESOLUTION.—The present is a triennial report, and instructions for its preparation are contained in paragraph 6 of the Resolution of the Government of India appended to Government Resolution No. 518, dated the 2nd February 1904. These instructions have not been fully carried out.

2. The only comparison in the body of the present report between the results of the three years of the triennium under report and those of the preceding three years' period is that in paragraph 3 ; that is not instructive, as the ratios appear to vary widely from year to year. It is noticed that the percentage of sick at Naupáda has been higher in both years of its existence than in any other Asylum, and the death-rate in Poona has been very high in all three years of the triennium and at Naupáda in the last year.

3. Again, the total expenditure in 1903 was actually less than in 1901 before the opening of the Naupáda Asylum. The net expenditure, however, in the former year is slightly higher than in the latter. The fact of the new Asylum having been opened during the triennium is only to be observed from there being statistics for it in paragraph 3 for only two years.

4. These are points which might have been referred to with advantage in the body of the report, and the Surgeon General should be requested to submit explanatory remarks now for the information of Government.

5. As directed by the Government of India, the triennial report should be fuller than the brief notes on the statistics of intermediate years ; and it is desirable that figures which will naturally attract attention should be noticed. On the other hand the details of causes of death (which have been given for some of the Asylums and not for others) seem unnecessary unless there are particular reasons for mentioning them, and the detailed information in paragraph 6 might have been condensed.

J. SLADEN,
Acting Secretary to Government.
